MARISA GIRARDI

Trieste 13th Feb. 2015.

Marisa Girardi is Associate Professor at the Department of Physics (FIS/05 Astronomy & Astrophysics) of the University of Trieste (Italy). She was born in Vercelli (Italy) on Dec. 2nd, 1963 and graduated in Physics at the Univ. of Trieste in 1988. She got her Master (1990) and PhD in Astrophysics (1992) at the International School for Advanced Studies (SISSA-ISAS) of Trieste. Marisa Girardi was awarded several post-doctoral fellowships. She obtained the position of Ricercatore at the Trieste Univ. in 1998 and the National Academic Qualification for a position of Associate Professor (2014). Since 2000/2001 she teaches one or more courses of Astrophysics or Basic Physics. She has been the supervisor or co-supervisor of several Master/PhD degree students. Since 2002 she is a member of the Teacher Board of the Graduate School of Physics. Marisa Girardi works in extragalactic astronomy and observational cosmology with specific interests in clusters of galaxies. She has been PI or Col in several awarded proposals of observational time at several optical telescopes (TNG, WHT, INT, ESO-3.6m, NTT, VLT) and at radio and X-ray telescopes. She was Visiting Scientist at ESO (Garching, Germany) in 2000 and has scientific collaborations with numerous national and international scientific Institutions active in Astrophysics.

She has published about 120 articles of which 72 in the main peer-review international astrophysical journals (22 as 1st author) and 1 book contribute, leading to 2784 citations according to ADS; h-index=27. She serves as referee for major international astrophysical journals and has been external referee for a few international observational proposals. She has participated in many grants successfully awarded by ASI, INAF, MIUR, in particular in the PRIN-INAF2010 and in the PRIN-MIUR2010/11, both in the quality of Local PI. She is member of the International Astronomical Union (IAU) and INAF.
