The State of Food Security and Nutrition in the World (SOFI 2019)

Food and Agriculture Organization of the United Nations

The latest edition of The State of Food Security and Nutrition in the World (SOFI 2019) gives an updated estimate of the number of hungry people in the world, including regional and national breakdowns, and the latest data on child stunting and wasting as well as on adult and child obesity. This year, for the first time, the report presents the estimates of a new indicator: the prevalence of moderate and severe food insecurity based on the Food Insecurity Experience Scale (FIES). This new edition of the report also includes a special focus on economic slowdowns and downturns, which are among the main drivers behind the recent rise in world hunger. The report, which is developed thanks to the collaboration of FAO, IFAD, UNICEF, WFP and WHO, is an important measure of global progress towards the Sustainable Development Goal of [#ZeroHunger](#).

Food safety, everyone's business on World Food Safety Day

Food and Agriculture Organization of the United Nations (16 mag 2019)

FAO is committed to a world without hunger Bukar Tijani, FAO Assistant Director-General calls on all those who work with food, from production to consumption, to ensure the food we all eat is safe. The first ever World Food Safety Day will be celebrated on 7 June 2019 to draw attention and inspire action to help prevent, detect and manage foodborne risks,

contributing to food security, human health, economic prosperity, agriculture, market access, tourism and sustainable development.

Re-thinking Progress: The Circular Economy

Ellen MacArthur Foundation

There's a world of opportunity to re-think and re-design the way we make stuff. 'Re-Thinking Progress' explores how through a change in perspective we can re-design the way our economy works - designing products that can be 'made to be made again' and powering the system with renewable energy. It questions whether with creativity and innovation we can build a restorative economy.
