Discussion points on Competition Law:

- 1** Are there any protected industries in your country? Why do you think these industries are protected? Are there any advantages in keeping out competitors? Make a list of points for and against the regulation of competition.
- 2** You have decided to start a sports shoe retail business. Are you going to sell locally-made shoes or import them from other countries at a lower price? Think of some legal factors you should consider when entering the market: for example, are there import taxes on foreign goods? What government protection for local industry is there?
