Skin Contact

Eye Contact

Ingestion

4.2 Most important symptoms and effects, both acute and delayed

4.3 Indication of any immediate medical attention and special treatment needed Remove victim to fresh air and keep at rest in a position comfortable for breathing.

After contact with skin, wash immediately with plenty of soap and water. In the event of contact with molten product: Cool affected area quickly with water. Do not attempt to remove hardened product. Obtain medical attention.

Flush eyes with water for at least 15 minutes while holding eyelids open.

Call a physician (or poison control centre immediately).Do not induce vomiting wash out mouth with water. Call a physician (or poison control centre immediately).

Unlikely to be required but if necessary treat symptomatically.

- 5.1 Extinguishing media Suitable Extinguishing Media Unsuitable Extinguishing Media
- 5.2 Special hazards arising from the substance or mixture

Extinguish with waterspray, foam or dry chemical. None. In case of fire the following can develop:Oxides of carbon.

Page: 2/7

5.3 Advice for fire-fighters

A self contained breathing apparatus and suitable protective clothing should be worn in fire conditions.

Dust is ignitable but will not sustain combustion. A high temperature source of ignition is required. Insensitive to sparks. The minimum spark energy required for ignition of a dust cloud is greater than 5000 mJ. It will not train fire, e.g. along beams etc.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1	Personal precautions, protective equipment and emergency procedures	Avoid inhalation and contact with eyes or skin.Ensure sufficient supply of air. Avoid build up of dust.Remove possible cause of ignition – do not smoke.Take precautionary measures against static discharge.
6.2	Environmental precautions	Avoid release to the environment.Prevent surface and ground water infiltration, as well as ground penetration.
6.3	Methods and material for containment and cleaning up	Sweep up carefully with non-sparking tools. Transfer to a lidded container for disposal or recovery.
6.4 6.5	Reference to other sections Additional Information	
SECT	TION 7: HANDLING AND STORAGE	
7.1	Precautions for safe handling	General hygiene measures for the handling of chemicals are applicable.Eating, drinking, smoking, as well as food storage, is prohibited in work room. Avoid build up of dust. Local Exhaust Ventilation at the workplace or on the processing machines required. Note:Danger of explosive dust Machine Cleaning (purging):Purging with other polymers (e.g Polyethylene) at high temperatures can be hazardous. Auto ignition may also occur. Local exhaust ventilation is required.The relevant Safety Data Sheet for the purge material to be used should be consulted. Additional information can be obtained from the Victrex website www.victrex.com
7.2	Conditions for safe storage, including any incompatibilities	Store products enclosed, in original packing.
	Storage Temperature	Store at room temperature.
	Storage Life	> 10 Year(s).
	Incompatible materials	None known
7.3	Specific end use(s)	The materials are generally used for injection moulding and extrusion operations.

SECT	TION 12: ECOLOGICAL INFORMATION			
12.1 12.2	Toxicity Persistence and degradability	Low toxicity to aquatic organisms. Not readily biodegradable.		
12.3 12.4	Bioaccumulative potential Mobility in soil	Not classified as PBT or vPvB. The product has low mobility in soil.The product has low mobility in sediment.		
12.5 12.6	Results of PBT and vPvB assessment Other adverse effects	Not classified as PBT or vPvB. None anticipated		
SEC	TION 13: DISPOSAL CONSIDERATIONS			
13.1	Waste treatment methods	Disposal should be in accordance with local, state or national legislation.		
13.2	Additional Information	None		
SEC	TION 14: TRANSPORT INFORMATION			
14.1	Land transport (ADR/RID) UN number Proper Shipping Name	Not classified as dangerous for transport. Not applicable Not applicable		
14.2	Sea transport (IMDG) UN number	Not classified as dangerous for transport. Not applicable

14.3	Air transport (ICAO/IATA) UN number Proper Shipping Name	Not classified as dangerous for transport. Not applicable Not applicable		
14.4	Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code	Not applicable		
SEC	TION 15: REGULATORY INFORMATION			
15.1	Safety, health and environmental regulations/legislation specific for the substance or mixture	Not classified as dangerous for supply/use.		
15.1.1	EU regulations Authorisations and/or restrictions on use	None		
15.1.2	National regulations TSCA	Listed		
15.2	Chemical Safety Assessment	Not relevant for this material.

Additional Information

Manufactured in the UK under a Quality System approved to ISO 9001:2008 by Victrex Plc.

Additional information on the properties, processing and application of VICTREX polymers is available at www.victrex.com. These details refer to the product as it is delivered.

The statements made here should describe the product with regard to the necessary safety precautions - they are not meant to guarantee definite characteristics - but they are based on our present up-to-date knowledge.
