Dear Nicolo,

I noticed you haven't submitted an entry yet to the 2021 **Create the Future Design Contest**. If you have a great idea for a new product that could produce jobs, improve public health & safety, save the environment, or benefit society in other ways, this contest is perfect for you! Enter at www.createthefuturecontest.com for a chance to win \$25,000 and global recognition. There's no cost to participate.

Individuals and teams of engineers, students, and entrepreneurs are invited to enter in seven categories: Aerospace & Defense; Automotive/Transportation; Consumer Product Design; Electronics/Sensors/IoT; Manufacturing/Robotics/Automation; Medical; and Sustainable Technologies/Future Energy.

In addition to our largest grand prize ever (\$25,000), you could win an HP workstation computer. Most importantly, you'll reach a global community of business leaders, manufacturers, and investors who could help bring your ideas to life.

Let's change the world for the better. Enter today at www.createthefuturecontest.com.

Thanks,

Joe Pramberger
President
SAE Media Group (contest producer)
