

# Montessori method

By Angelica, Aurora, Aisha, Maria

**Do you think your education was good enough?**

# What is it?

---

The Montessori method is an educational system developed by pedagogue Maria Montessori, practiced in 60,000 schools worldwide

# Montessori classrooms

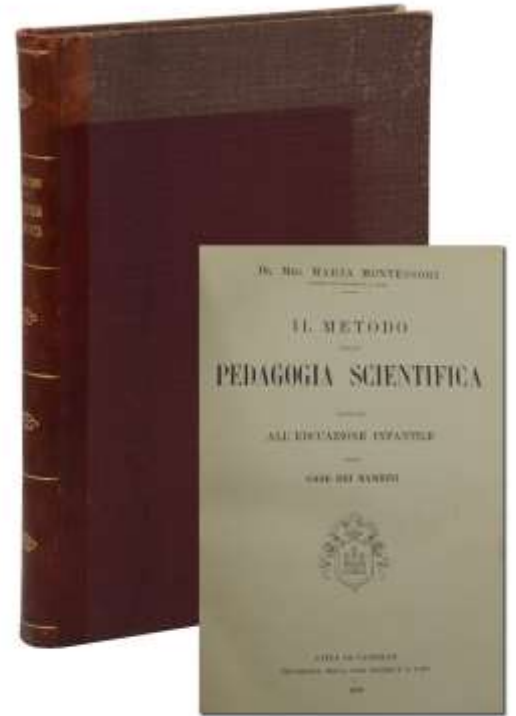

In 1907, she opened her first classroom, called "La casa dei bambini", in a public building in Rome.

# History

---

Maria Montessori began to develop her philosophy and method in 1897

# Key points

---

The Montessori method has two fundamental elements:  
firstly, children and adults build their own character;  
secondly, children know an important path of mental development

Multi-age groupings of children are a unique classroom component of the Montessori program

# Pros and cons

## Pros

- be more helpful and receptive
- The learning path is unique and tailored to each child
- Learning is based on experience
- is for everyone
- promotes inclusion

## Cons

- not suitable to learn some subjects
- more difficulties in attending a traditional school
- huge investment

**How would you educate your child?**
