Italian competition 2022 - Units

Givit

Givit: an innovative web platform simplifying the **rental of items by individuals, shops, and companies.** By transitioning from ownership to a rental-centered economy, Givit promotes **sustainability, minimizes resource waste, and supports local economies.**

World Cup 2024 - team Tunisia

BOVITA offers a range of 100% natural products based on **phytotherapy** designed to **replace antibiotics and chemical treatments** in preventing and treating **Bovine Mastitis.** Their line includes products that effectively treat infected areas, reduce inflammation, and eliminate bacteria.

THE PROBLEM

Coffee grounds are often discarded improperly, contributing to:

- **Increased waste** in landfills
- **Methane emissions** from landfills
- **CO₂ emissions** from incineration

THE SOLUTION

Individuals and businesses subscribe to our service through an **app**, with a QR code they unlock one of our **smart bins**, then we **collect the coffee grounds**. Then we dry it and sell it to companies in the **cosmetics** and **biomaterials** industry.
