

DEWESoft®

SUMMER CAMP 2025

3-9 August 2025

Dewesoft HQ, Trbovlje - Slovenia

APPLY HERE

DEWESoft® SUMMER CAMP 2025

WHY TO JOIN

Step beyond theory and dive into hands-on field experience. Connect with top measurement engineers, gain practical insights, and open doors to transformative career opportunities that can change your life.

WHAT IS IT

Intense theoretical and practical in-house training with focus on hands-on hackathon experience and competitive challenge between participating engineers from across Europe.

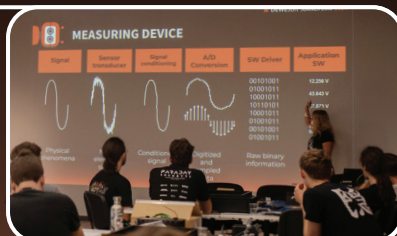

FOR WHO

Bachelor's, Master's, and Doctoral students in STEM fields—electrical, mechanical, computer engineering, mechatronics, aerospace, AI, physics, and mathematics—ready to push their skills and knowledge to the next level!

PREREQUISITES

Before the event you must complete at least 10 ONLINE PRO Training courses and prepare a case study or application note. To arrange equipment rental and discuss your project, please contact the event coordinator or your local Dewesoft office.

WHAT IS COVERED

In-house English-language training by local and international experts, all necessary equipment and materials for technical challenge plus accommodation (with breakfast), lunch, coffee, snacks, a team-building event, and an Award Ceremony dinner party.
